REPORT ON LIFE MISSION PROJECT AT PERINGOME

The inauguration of the proposed Life Mission project at Erattakkulam in Peringome Panchayat was made on 28th March, 2023. The proposed project is to plan residential plots with common facilities like Anganvadi, community centre, shops, recreation centre etc. with road access to every plot.

Principal Dr. Leena A V, Head of the Department of Civil Engineering Ms. Mary Sonia George, other staff members- Ms. Saritha Sasindran, Mr. Shibin B, Ms. Shamyia Sukumaran M, Ms. Pooja K P and Ms. Reeba Maria along with the students from S6 CE attended the function.

Familiarisation of the proposed site was done on that day and it was decided to conduct a total station contour survey of the site. The revenue sketches of the plots were collected from the village office on the same day.

The students of S6 CE were assigned the work of preparing the drawings of the common facilities like Anganvadi, community centre, shops, recreation center etc, under the guidance of faculty from the department. They have completed this task.

The total station survey of the site was done on April 14th. All the students of S6 CE and the staff members Ms. Saritha Sasindran, Mr. Shibin B, Ms. Shamyia Sukumaran M, Ms. Pooja K P and Ms. Reeba Maria participated in the survey. The survey was carried out from 9am to 5.30pm.

After obtaining the contour sketch from the total station survey the preparation of master plan has been started. In Autocad, the subdivision of the plot and planning of road network is being carried out.

In order to fix and identify some boundary points a site visit was made on May 5th by the faculty and a few students along with an official from the village office Peringome. The boundary marks on several points could be identified during this visit. But a few boundary points couldn't be located. These points are to be fixed by surveying, before finalising the master plan.

The planning of road network and sub division of plot has been done in Autocad. After seeking expert opinion from a town planner we are reworking on the plot sub-division in order to make it more suitable for the layout of buildings. This will be completed by 7th June. We are planning a site visit this week to confirm the measurements in the drawings and that in the field.

LED BULB DISTRIBUTION IN MAMPOIL

On 6th march 2024 , As part of 7 days residential camp an orientation session for the locals of Mampoil was held on energy conservation through home visits. Volunteers distributed LED Bulbs, manufactured as part of National Energy Conservation Day at college, free of cost, and demonstrated how LED bulbs reduce energy consumption.

IDAM REHABILITATION CENTRE VISIT

IDAM is a rehabilitation and therapy center located in Nileswar, initiated by the DAYA Foundation under the guidance of Sri. Daya Bai, a renowned national social worker. Essentially, IDAM was established to offer free physiotherapy facilities to children affected by endosulfan exposure. To support this noble cause, NSS SNGCET organized a toys and equipment challenge among college students and staff, raising an amount of 14,000 rupees to provide toys and materials for their therapy sessions.

On January 23, 2023, NSS volunteers visited IDAM and handed over these toys and equipment to Sri. Daya Bai. Following this, the volunteers engaged in a discussion with Sri. Daya Bai regarding the future plans and activities at IDAM. Additionally, they pledged to develop a website for IDAM at no cost, demonstrating their commitment to supporting the center's endeavors.

Kanayi Kanam, situated near Payyanur, is a picturesque water body that attracts numerous travelers and photographers, especially during the rainy seasons. However, the natural ecosystem of this area has been adversely affected by the accumulation of plastic bottles and covers. To address this issue, the NSS unit of SNGCET organized a cleaning drive at Kanayi Kanam on April 21, 2023, to clear away all plastic waste before the onset of the rainy season. Several students, alongside NSS volunteers, actively participated in this program.

The NSS Unit of SNGCET, in collaboration with the Nature Club of SNGCET, organized a World Environment Day celebration at the college on June 5, 2023. The event was formally inaugurated by Sri. Rajeevan M, Assistant of Social Forestry in the Kannur division. Inside our campus, Sri T K Rajaendran, Vice President of SBSY Talap, inaugurated the paper pen distribution challenge, following which paper pens were distributed to all college staff. Additionally, Dr. Leena A V, the college principal, formally inaugurated the vertical garden

Grocery and Vegetables Distribution to Economically Weaker Localities of Mampoil

During the afternoon session of a residential camp on March 9th in Mampoil, students engaged in distributing food materials and vegetables to economically disadvantaged individuals of the area. Demonstrating a touching blend of compassion and community solidarity, a team of committed NSS volunteers recently initiated a campaign to aid the economically vulnerable residents of Mampoil. Acknowledging the urgent requirement for support, particularly amidst challenging economic conditions, these students assumed the responsibility to bring about a concrete positive change in the lives of those experiencing hardship

Plastic Waste Collection and Disposal in Mampoil & Garden Making

On the 7th of March, 2024, a commendable environmental initiative took place at Mampoil Junction, led by a dedicated group of National Service Scheme (NSS) volunteers. The event focused on the critical issues of plastic waste management and urban greening, showcasing the volunteers' commitment to environmental sustainability and community welfare.

The day commenced with a plastic waste collection drive, where NSS volunteers meticulously scoured the area, gathering discarded plastic items that littered the junction. This activity was not only about cleaning the environment but also served as a strong message to the local community about the detrimental effects of plastic waste on our planet. By disposing of the collected waste in an eco-friendly manner, the volunteers ensured that their efforts contributed positively to reducing pollution and promoting recycling practices.

The garden creation was a testament to the volunteers' hard work and creativity, embodying the spirit of 'green activism'. Through their efforts, they demonstrated that small actions can lead to significant environmental improvements. The garden stands as a symbol of hope and a reminder to the community of the importance of nurturing and preserving our natural surroundings.

The NSS volunteers' initiative at Mampoil Junction is a shining example of how youth can lead the way in environmental conservation and community improvement. By addressing the twin issues of plastic waste and the lack of green spaces, they have made a tangible difference in their local community.

Vegetable Garden Making – Sacred Heart L P School Mampoil

The initiative began early in the morning, with volunteers gathering at the designated area in the school grounds. The site was carefully chosen for its optimal sunlight exposure and accessibility to ensure the successful growth of the garden. The first step involved preparing the soil, a crucial process that involved clearing the land of weeds, tilling the earth, and enriching it with organic compost to create a fertile ground for the vegetables to thrive.

Once the soil was ready, the volunteers, alongside interested students and teachers, began the planting process. The selection of vegetables was strategic, focusing on varieties that were not only easy to grow but also beneficial for the school's lunch program. Tomatoes, carrots, spinach, and beans were among the chosen crops, planted with care and precision to ensure they would yield a bountiful harvest.

The vegetable garden at Sacred Heart LP School, Mampoil, stands as a testament to the power of community and the positive impact of youth-led initiatives. Through their hard work and dedication, the NSS volunteers have created more than just a garden; they have sown the seeds of change, inspiring a future generation to carry forward the torch of sustainability and care for our planet. This project marks a significant step towards a greener, healthier future, rooted in the principles of self-sufficiency and environmental respect.
