## Details of Wired Network and Internet Connectivity

The IT infrastructure facility at Sree Narayana Guru College of Engineering and Technology is adequately equipped. The institution regularly upgrades its information technology infrastructure, encompassing wireless fidelity, computer systems, and other equipment pertinent to information technology.

- The establishment comprises of a Wired Network, specifically the SNGCET star topology, and a Wi-Fi Network, denoted as SNG Campus. The educational institution possesses a pair of FTTH internet connections, namely BSNL-300Mbps
- The educational institution is outfitted with a total of one distinct server. The aforementioned servers have been configured with RAID5.
- The provision of Wi-Fi is facilitated through the utilisation of a Omeda controller in conjunction with access points from Digisol, and TP Link.
- 6 numbers of TP-Link AX1800 WIFI 6 access Points and one Omeda Controller in the college
- The management of the wired network involves the utilisation of a total of 45 network switches.

## **Digital Library**

### **Specification of Library Automation Software**

#### **Desktop Application and Web Application**

- Modules
- Database/Technical processing/Cataloguing module
- Circulation/Counter transaction /Issue and return module
- Acquisition control module
- Serial control module
- Administration module
- OPAC (search) module
- Reports module
- Article indexing module
- Digital library resources cataloguing module
- Technical Information Specification

#### **1. Client Server Application**

- Front End Microsoft Visual Basic
- Back End Microsoft SQL Server 7.0 and Above
- Version Multi-user, LAN
- User/Client License 5 users (Client can increase the license)

#### **2. Online Application (BookMagic Web Edition and Web OPAC)**

- Front End Microsoft ASP.Net, C#
- Back End Microsoft SQL Server 2005 and Above
- User/Client License Unlimited user

#### **3. Highlights of Library Automation Software**

- Client Server and Online versions available
- Fully Integrated, multi-user, user friendly, versatile
- Facility for importing and exporting records in MARC 21 format
- Supports Z39.50 protocol for searching and retrieving information from remote computer databases.
- Export and import of data in ISO 2709 format using MARC tags

  
**Dr. LEENA A V**  
PRINCIPAL  
SREE NARAYANA GURU COLLEGE OF

PAYYANUR, KANNUR

Est. 2003

# Sree Narayana Guru College of Engineering & Technology

CHALAKKODE P.O., KOROM, PAYYANUR, KANNUR-670 307

- Integrated with RFID, Interface to barcode devices such as scanners, printers and data capturing unit.
- Able to generate and print bar code labels and members.
- Support TCP/IP protocol for networking
- Web based and multi-user interface for OPAC
- Web module can be used to search on the internet/intranet (for Client Server Version)
- Latest IT/Web tools and techniques
- Handle more than 1000,000 of records easily
- Instant retrieval of data
- Concurrent access of data by many users
- Online stock verification support
- Search facility including Key word search, logical search and sounding word search
- Search the library services on the campus intranet using browsers
- Cataloguing per international standards
- Display of records in international formats like MARC
- Easy, flexible and efficient circulation system
- Overdue reminder
- Easy recording of data
- Cataloguing the digital resources as per international standard of Dublin Core Standard
- Separate database creation and maintenance for books, book banks, journal articles, back volumes, thesis, reports, standard codes, non-book materials etc.
- Book ordering and serial control/tracking the stock right from identification of book or item to ordering, receipts and payments etc.
- Provisions for changing semesters, year-outs, pass outs, issuing of NLC etc.
- Daily statistics report for the Librarian regarding all the events in the library of sorting and printing various reports in any desired order and export into different file formats like word, excel and HTML etc.,

**Dr. LEENA A V**  
PRINCIPAL  
SREE NARAYANA GURU COLLEGE OF  
ENGINEERING & TECHNOLOGY  
PAYYANUR, KANNUR

Est. 2003

# Sree Narayana Guru College of Engineering & Technology

CHALAKKODE P.O., KOROM, PAYYANUR, KANNUR-670 307

- Able to generate more than 300 reports
- Complete transaction reports from web counter
- Global update of field values, due date, cards etc.,
- Flexible in fixing due date, over due charge eligible cards etc.,
- Database security, automatic or manual backup and recovery, export and import
- Able to browse scanned contents, pages of journal issues/books with respective records.
- Create, edit, update, maintain etc. the database such as book, thesis, proceedings, standards, reports, journals, journal issues, journal articles, back volumes, non book materials, patents, news paper clippings, images, authors, publishers, suppliers, subjects, members, departments, courses, groups etc.
- All types of counter transactions for books, book bank books, journal issues, back volumes, standards, reports thesis, non books etc., such as issue, return renewal, recall, reservation, reservation cancel, reminders, overdue reports, receipts, nonliability certificates, generating and printing interface to barcode systems etc.
- Book ordering and processing such as checking for duplicates, indent, proposal, approval, processing, receipt of documents and invoice processing, order follow up, payment, budget control, transfer the processed details to book database, printing bar code labels, vendor information etc.,
- Subscription of journals such as creation and maintenance of journal master, proposal and approval of journals, subscription and periodical renewal of journals, invoice processing, payment, Budget control, receipt of issues, claiming missing issues or replacements, searching/browsing issues, indexing and abstracting of journal, articles, information regarding back volumes, bladdery etc.,
- Administration like create, delete user log in ID, password, grant rights to access various modules, to set due date, to set allowed cards for different documents for different categories of users, to set over due charge at

Est. 2003

various stages, conduct on library stock verification, maintain budget, update database globally using various fields etc.,

- Generate and print reports such as list of books by author, title, publisher, call number, subject, accession number, availability, Books issued/renewed/returned/reserved on daily/weekly/monthly/between dates with details, alert service of new additions details of amount spent under various subjects/departments/year etc., list of journals Indian, foreign, list of member department wise, course wise etc., details of books for binding, unserviceable, missing etc., catalogues, list of publishers, suppliers, various counter transaction reports, list of over due charge paid by users with details of books with issue date due date number of days of due etc.,
- OPAC of simple search, advanced search, query builder, restricted search, and dictionary based search for all the important databases using all the important fields and print search results in any desired order, etc.,
- Web module (web Opac) to search various database using browsers like internet explorer on LAN/Intranet/Internet environment, user statistics, issue details, online reservation, down loading and printing searching results etc.,
- Web OPAC has features such as – New Arrivals, important library News and events and Online Library Notice board (for Important Notices, Rules & Regulations and Membership procedures.).
- Search based on more than ten fields
- Extensive printer support
- Icons, tool bars, scroll bars etc. as GUI
- Automatic backup
- Replication of data in backup server
- Module/Form level security for different user categories.
- User ID and password for various modules
- Online help and user manual
- High Security for Library Data
- Local Service Easily Available

## Cloud Computing

## ABOUT THE COURSE:

Cloud computing is a scalable services consumption and delivery platform that provides on-demand computing service for shared pool of resources, namely servers, storage, networking, software, database, applications etc., over the Internet. It is a model for enabling ubiquitous, on-demand access to a shared pool of configurable computing resources, which can be rapidly provisioned and released with minimal management effort. This course will introduce various aspects of cloud computing, including fundamentals, management issues, security challenges and future research trends. This will help students (both UG and PG levels) and researchers to use and explore the cloud computing platforms.

INTENDED AUDIENCE : CSE,ECE,EE

PREREQUISITES : Basics of Computer Architecture and Organization, Networking

INDUSTRY SUPPORT : IT industries

### DSpace Repository

DSpace is a digital service that collects, preserves, and distributes digital material. Repositories are important tools for preserving an organization's legacy; they facilitate digital preservation and scholarly communication.
