Report of the Session on ECOSYSTEM RESTORATION

Date: 5th June 2021

Venue: Google Meet

The Computer Society of India (CSI) chapter at Sree Narayana Guru College of Engineering & Technology (SNGCET) organized an event on "Ecosystem restoration" in connection with World Environment day. The event aimed to raise awareness about the importance of restoring degraded ecosystems and fostering sustainable environmental practices.

The session commenced with a warm welcome address by Ms. Jinsha CJ, Staff coordinator, CSE. Ms. Jinsha expressed her excitement about the importance of the topic and how it aligns with the college's commitment towards environment. Ms. Jinsha introduced the chief guest, Dr. Shika S, Associate Professor and head, Dept. of Civil Engineering, M Dasan Institute of Technology, Calicut.

Dr. Shika S delivered an insightful keynote address, emphasizing the critical need for ecosystem restoration to mitigate environmental degradation and combat climate change. She highlighted the alarming rate of biodiversity loss, deforestation, and habitat destruction, underscoring the urgent action required to restore ecosystems for the well-being of present and future generations. Dr. Shika S presented case studies and success stories of ecosystem restoration initiatives from around the world, showcasing innovative approaches and best practices. Examples included reforestation projects, wetland restoration, mangrove conservation, and sustainable agriculture practices, demonstrating tangible outcomes and community engagement. The keynote speech concluded with a compelling call to action, urging individuals, communities, governments, and organizations to prioritize ecosystem restoration as a fundamental component of sustainable development. Dr. Shika S emphasized the importance of collective efforts, policy interventions, and investment in nature-based solutions to address environmental challenges and build resilience to climate change.

Following the keynote address, an interactive discussion session allowed participants to engage with Dr. Shika S, asking questions and sharing insights on ecosystem restoration strategies and challenges. Participants exchanged ideas, experiences, and recommendations for promoting ecosystem restoration in their respective communities and organizations.

Dr. Shika S's keynote speech on ecosystem restoration on World Environment Day served as a poignant reminder of the urgent need to restore and conserve ecosystems for the sustainability of the planet. The event inspired participants to take proactive measures and collaborate towards achieving the ambitious goals of ecosystem restoration, biodiversity conservation, and climate action. It reinforced the significance of collective action and stewardship in safeguarding the environment for future generations.

In connection with the World Environment Day celebration, various events were conducted involving students, boosting their creativity and innovative thoughts.

Report of the Session on A talk on career opportunities after CSE

Date: 26th April 2021

Venue: Google Meet

The Computer Society of India (CSI) chapter at Sree Narayana Guru College of Engineering & Technology (SNGCET) organized an inauguration event "SNGCET-CSI Student's Chapter" for a talk focusing on "A Talk on Career Opportunities after Computer Science Engineering (CSE)." The event aimed to provide insights into various career paths and opportunities available for CSE graduates.

The session commenced with a warm welcome address by Mr. Sunder V, the Head of the Department of Computer Science and Engineering. Mr. Sunder expressed his excitement about the importance of the topic and how it aligns with the college's commitment towards its students. Mr. Sunder introduced the chief guest, Dr. M.A. Dorai Rangaswamy. He emphasized the significance of career planning and skill development in the field of Computer Science Engineering. He also shared personal anecdotes and industry insights, inspiring the audience to explore diverse career options in the tech industry. The event was graced by the presence of Dr. V.K. Janardhanan, the Principal of SNGCET, and featured Lt.Col.Preveen C, as the resource person.

An interactive Q&A session followed the talk, allowing students to seek clarifications and guidance on career-related queries. Participants actively engaged with the speaker, seeking insights on industry trends, job market dynamics, and skill requirements.

The inauguration of the SNGCET CSI talk on career opportunities after CSE was a significant milestone in providing valuable guidance and insights to students pursuing Computer Science Engineering. The event served as a platform for students to explore diverse career paths, gain industry-relevant knowledge, and connect with professionals in the field. It reaffirmed the commitment of SNGCET CSI towards empowering students with the necessary skills and information to excel in their careers in the rapidly evolving tech industry.

17-11-2023

OFFICE ORDER

Sree Narayana Guru College of Engineering and Technology, Payyanur is an Institutional Member of the 'Indian Society for Technical Education' (ISTE) since 2005. To revive the activities and to initiate a ISTE Student Chapter, a Committee is hereby constituted with the following members in it.

- | | |
|---------------------------------------|--------------------|
| 1) Dr. Susan Abraham, Dean UG & PG | Chief Co-ordinator |
| 2) Ms. Saritha Sasindran, AP CE | Convenor |
| 3) Ms. B.Mary Sonia George, HOD CE | Member |
| 4) Mr. Sunder V, HOD CSE | " |
| 5) Dr. Sudhin Chandran, HOD ME | " |
| 6) Ms. Leena Narayanan, HOD ECE | " |
| 7) Mr. Abhilash Krishnan T K, HOD EEE | " |
| 8) Ms. Shruthi P, AP CSE | " |
| 9) Ms. Chaithanya K P, AP ECE | " |
| 10) Aswathi Raveendran, AP EEE | " |
| 11) Mr. Jijin I, AP ME | " |

The ISTE Student Chapter will contribute positively to the academic environment at fostering innovation and enhancing the technological capabilities of our students and will provide a platform for students to explore, learn, and contribute to the field of educational technology.

REPORT ON GATE AWARENESS INITIATIVE

Conducted by Dr. Tharun Rambha on 2/2/2024

Introduction:

On the 2nd of February 2024, Dr. Tharun Rambha spearheaded a GATE (Graduate Aptitude Test in Engineering) Awareness Initiative at Swami Bodanandha Hall, aimed at second and third-year engineering students. The event commenced promptly at 11 am and was attended by a significant number of eager participants.

Objective:

The primary objective of the initiative was to familiarize engineering students with the GATE examination, its significance, preparation strategies, and career prospects associated with it. Dr. Tharun Rambha, an esteemed faculty member known for his expertise in competitive exams, led the session with enthusiasm and profound insights.

Session Highlights:

Dr. Rambha commenced the session by elucidating the importance of GATE as a gateway to pursuing higher education in prestigious institutions and unlocking numerous career opportunities. He emphasized how GATE scores are not only pivotal for postgraduate admissions but also for securing lucrative job offers in both public and private sectors.

The session progressed with a comprehensive overview of the GATE examination pattern, including the types of questions, marking scheme, and syllabus coverage across various engineering disciplines. Dr. Rambha adeptly navigated through the intricacies of each section, providing valuable tips and tricks to optimize performance.

Furthermore, the initiative delved into effective preparation strategies tailored to suit the needs of second and third-year engineering students. Dr. Rambha elucidated the significance of starting early, creating a structured study plan, utilizing reliable study materials, and engaging in regular practice tests to gauge progress.

A notable segment of the session was dedicated to addressing common misconceptions and apprehensions surrounding the GATE examination. Dr. Rambha patiently answered queries raised by the participants, offering clarity on topics ranging from eligibility criteria to post-exam counseling.

Dr. LEENA A V
PRINCIPAL
SREE NARAYANA GURU COLLEGE OF
ENGINEERING & TECHNOLOGY
PAYYANUR, KANNUR

Interactive Session:

The initiative fostered an interactive environment wherein participants actively engaged with Dr. Rambha, exchanging valuable insights and seeking personalized guidance. Through interactive quizzes and group discussions, students gained a deeper understanding of key concepts while honing their problem-solving skills.

Key Takeaways:

Attendees of the GATE Awareness Initiative departed with a wealth of knowledge and actionable insights, including:

1. Understanding the significance of GATE in shaping their academic and professional trajectory.
2. Acquiring a comprehensive overview of the GATE examination pattern and syllabus coverage.
3. Learning effective preparation strategies tailored to their engineering discipline and academic year.
4. Gaining clarity on common misconceptions and apprehensions associated with GATE.
5. Accessing valuable resources and guidance to kickstart their GATE preparation journey with confidence.

Conclusion:

In conclusion, Dr. Tharun Rambha's GATE Awareness Initiative proved to be a resounding success, empowering second and third-year engineering students with the requisite knowledge and motivation to excel in the GATE examination. The event served as a beacon of guidance, igniting a sense of ambition and determination among participants as they embark on their journey towards academic and professional excellence.

REPORT ON TECHNICAL TALK

“HYDROGEN ENERGY-Methods of Production, Storage and Uses”

By Dr.A Govindaraj, Professor, IISC, Bangaluru

Date: February 9, 2024

Venue: Swami Bodhananda Hall

Audience: First year students from all the departments.

Objectives:

The primary objective of the talk was to make the students aware of the sustainable energy concepts and modern trends in energy production. Dr. A Govindaraj also talked about the options for higher studies at IISC Bangaluru for Engineering Graduates.

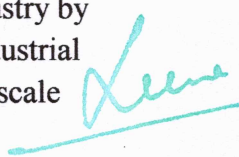

Session highlights

Dr. A Govindaraj, an esteemed expert in renewable energy and sustainable engineering, delivered an insightful technical talk on hydrogen energy, focusing on its production methods and diverse applications. His presentation covered various aspects of hydrogen production, storage, and utilization, highlighting the role of hydrogen as a clean and versatile energy carrier.

Dr. A Govindaraj initiated the talk by introducing hydrogen as a promising alternative energy source with the potential to mitigate climate change and reduce dependence on fossil fuels. He emphasized hydrogen's abundance in nature and its eco-friendly attributes, such as zero emissions when used in fuel cells.

The speaker elaborated on different methods of hydrogen production, including steam methane reforming (SMR), electrolysis, and biomass gasification. He provided insights into the thermodynamic principles underlying each process, discussing their efficiency, scalability, and environmental impacts. Professor Johnson also highlighted the importance of exploring renewable sources for hydrogen production, such as solar-driven water splitting and biological hydrogen production.

Dr. A Govindaraj elucidated the diverse applications of hydrogen across various sectors, including transportation, industry, and power generation. He discussed the use of hydrogen fuel cells in vehicles, emphasizing their potential to revolutionize the automotive industry by offering zero-emission mobility. Additionally, he touched upon hydrogen's role in industrial processes, such as ammonia production and refining, as well as its potential as a grid-scale energy storage solution.

Dr. LEENA A V
PRINCIPAL
SREE NARAYANA GURU COLLEGE OF
ENGINEERING & TECHNOLOGY
PAYYANUR, KANNUR

The talk addressed the challenges associated with hydrogen energy, including cost, infrastructure development, and safety concerns. Professor Johnson underscored the need for interdisciplinary research and collaboration to overcome these challenges and unlock the full potential of hydrogen as a sustainable energy carrier. He also highlighted the growing momentum in government policies and private investments aimed at advancing hydrogen technologies.

Q&A Session:

The presentation concluded with an engaging question-and-answer session, during which students had the opportunity to delve deeper into specific aspects of hydrogen production and utilization. Professor Johnson provided insightful responses, fostering an interactive exchange of ideas and perspectives among the audience.

Takeaways:

Dr. A Govindaraj's technical talk on hydrogen energy provided college students with a comprehensive overview of hydrogen energy field. By elucidating the methods of hydrogen production and its diverse applications, he inspired students to explore innovative solutions for transitioning to a hydrogen-based economy. The talk served as a catalyst for further research and collaboration, highlighting the pivotal role of hydrogen in achieving a sustainable and resilient energy future.
